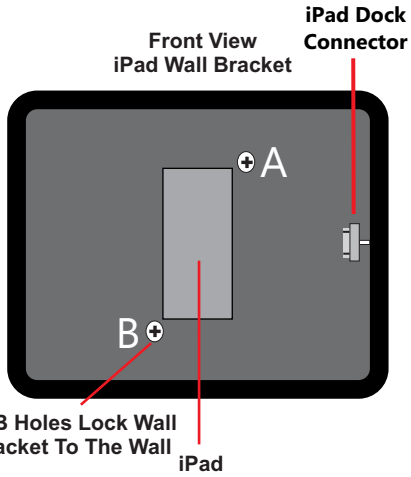
95-IPAD-SIWK-WH (White)



Calrad's new iPad in-wall kit can be used to interface with any home automation system or Calrad's xLobby xPad media management and control platform, available in black or white finishes. The in-wall kit is simple to install and uses a single gang back box cutout in the wall for installation, mount the iPad vertically or horizontally. Locate iPads up to 200 ft. away from a WAP (Wireless Access Point). 12Vdc power and Wi-Fi signals are provided over a single cat5e or Cat6 wire. The kit includes 1 x in-wall bracket with a single gang box, 1 x Interface module, 1 x Wi-Fi interface cable assy., 1 x 12Vdc power supply. Use multiple in-wall kits together to provide a network of iPad connected devices for home control. Optional Illuminated Acrylic backlighting kits available for enhanced decorated look, ask your Calrad sales representative for all the details.
